

Phoenix Interface Policy Information

Thank you for downloading from Phoenix Interface!

PRIVACY

Phoenix Interface offers this privacy policy ("Notice"). ("I", "we", "us", or "our") may collect, safeguard, and utilise personal information ("Personal Information") that you ("User", "You", or "Your") give through ("we", "us", or "our"). Phoenix Interface website ( [Phoenix Interface • Freelance Designer & Developer](#)) and Phoenix Interface product purchase procedure (together referred to as the "Website"). The policy also outlines your options for how we use your personal information, as well as how to access and amend it. This policy does not cover the activities of companies or individuals that we do not own or control.

CONTRIBUTION & ATTRIBUTION

When I work with a client, one of the many questions I try to ask is whether they have any inspiration to offer, so that I can understand where they are coming from and how they want to appeal to their target audience. This provides me with an ideal opportunity to put that inspiration to work by covering trends and staying current in a digitally augmented environment.

With that in mind, I explore a lot of popular templates, styles, and approaches that inspire me online on well-known sites like Dribbble, Webflow, Ghost, Shopify themes, ThemeForest, and so on.

For originality and credibility, I am honoured to highlight where I got my inspiration in contrast to my approach to my version. I work mostly with React and it's complementary frameworks for my UI and UX design and development.

REFUND

All sales are final, and no refund will be issued.

QUESTIONS

If you have any queries or requests about a specific template, please visit  [Phoenix Interface • Freelance Designer & Developer](#) and fill out the form given on the product with your order number. Phoenix Interface will respond within 2–3 business days.

WORK PROCESS

As previously stated, I (Phoenix Interface) work on projects while drawing inspiration from additional concepts and/or designers online. I (Phoenix Interface) work and study numerous regulations to follow concerning copyright practices, the dos and don'ts, to guarantee that I not only work with a fair competitive analysis but also improve on my (Phoenix Interface) delivery.
